

BBA BA150E D285 with Hatz 4H50TIC

GENERAL INFORMATION

ID	24P00158
Make	BBA
Year	2019
Operating hours	7.165
Construction	Centrifugal pumps dry priming
Fuel	Diesel
Weight	1.600 kg
Length	227 cm
Width	105 cm
Height	155 cm

TECHNICAL INFORMATION

- 6" (6 inch) connection parts Perrot/Cardan/Type C • available with any desired quick coupling. • Can be used immediately • External fuel connection • Float switch (start/stop system) • Ground switch • Half open pump impeller • in stock! • PUMPED UP AND READY TO FLOW!
- self-priming (dry) • Spare parts available, usually in stock
- Suitable for pumping sewage • Suitable for pumping surface water / construction site water • SUPER silent housing (SUPER quiet) • Supported by van vacuum pump
- Unlimited dry running • We provide appropriate documentation for the purpose of Export

DESCRIPTION

BA150E Dirty Water Pump – Powerful, Reliable and Quiet
 The BA150E is the solution for pumping contaminated water. This 6-inch mobile dirty water pump is designed to handle tough challenges and offers excellent performance combined with user-friendliness and environmental friendliness. Why choose the BA150E?

- **Powerful performance:** Pump capacity up to 475 m³/hour with a solids passage of up to 80 mm. Perfect for pumping water with large dirt particles.
- **High efficiency:** The high pump efficiency and the adjustable wear plate with cutting grooves ensure low operating costs and a long service life.
- **Ready for immediate use:** Thanks to the innovative MP vacuum system, the pump primes quickly and reliably, even from dry conditions.

Technological innovation and sustainability
 Centrifugal pump

The semi-open impeller, adjustable wear plate and large inspection covers make maintenance easy and efficient. With excellent NPSH values, this pump guarantees optimum performance, even in demanding situations.

Clean diesel engine

Powered by an economical and environmentally friendly Hatz diesel engine, the variable speed control ensures low fuel

consumption and minimal noise pollution.

Super-quiet housing

The robust, sound-insulated housing is ideal for use in densely populated areas. The design combines safety, noise reduction and protection against the elements. The integrated plastic fuel tank with leak-proof base offers extra safety and ease of use.

BBA Pumps – Quality guaranteed

Features at a glance

- Multifunctional, with high efficiency and low operating costs
- Equipped with a fully automatic vacuum system for fast suction
- Optimised for durability and ease of maintenance
- Innovative and super-quiet housing for safety and noise control

With the BA150E, you get a reliable wastewater pump that effortlessly meets the requirements of today and tomorrow. Choose power, efficiency and silence with the BA150E from BBA Pumps.

Throughput capacity: 475 m³/h

Max dirt passage: 80 mm

Motor brand: Perkins 404D-22T

Max. head: 39 MWK

Max dirt passag: 1750 rpm
