

BBA BA150E D285 with Perkins 404D-22T

GENERAL INFORMATION

ID	23P00142
Make	BBA
Year	2014
Operating hours	5.650
Construction	Centrifugal pumps dry priming
Fuel	Diesel
Weight	1.600 kg
Power kw	36
Power hp	49
Length	227 cm
Width	105 cm
Height	155 cm

TECHNICAL INFORMATION

- 6" (6 inch) connection parts Perrot/Cardan/Type C • available with any desired quick coupling. • Can be used immediately • External fuel connection • Float switch (start/stop system) • Ground switch • Half open pump impeller • in stock! • PUMPED UP AND READY TO FLOW!
- self-priming (dry) • Spare parts available, usually in stock
- Suitable for pumping sewage • Suitable for pumping surface water / construction site water • SUPER silent housing (SUPER quiet) • Supported by van vacuum pump
- Unlimited dry running

DESCRIPTION

BA series pumps are designed with an emphasis on reliability, durability and efficiency. Thanks to their fully mechanical vacuum system, these pumps prime quickly even without liquid in the pump housing. The heavy-duty construction of both the pump and the casing make the BA series pumps ideal for use in the contracting and rental market.

The BA series is used in the most demanding applications. Thanks to the pumps' high efficiency and advanced diesel engines, the pumps deliver maximum performance at minimum cost.

Throughput capacity: 470 m3/h
Max dirt passage: 80 mm
Motor brand: Perkins 404D-22T
Max. head: 26 MWK
