DESCRIPTION

BBA BA300 dry self-priming pump
 This powerhouse can pump 1200 M3/hour.
 The BA series is designed with the emphasis on reliability, durability and efficiency. Thanks to their fully mechanical vacuum system, these pumps prime quickly, even without liquid in the pump housing. Due to the heavy-duty construction of both the pump and the casing, the BA series pump is ideal for use in the contracting and rental market.

- Total package designed and built by BBA
- Complete in-house design & production
- More than 60 years of experience in the market
