

BBA BV150 Electric driven

GENERAL INFORMATION

ID	23P00101
Make	BBA
Type	Electric driven
Year	2018
Operating hours	27
Construction	Water pumps
Fuel	Electric
Weight	1.640 kg
Power kw	30
Power hp	41
Length	267 cm
Width	104 cm
Height	140 cm

TECHNICAL INFORMATION

- available with any desired quick coupling.
- Can be used immediately
- in stock!
- PUMPED UP AND READY TO FLOW!
- self-priming (dry)
- Spare parts available, usually in stock
- Stack frame
- Supported by van vacuum pump

DESCRIPTION

BBA BV-150 dry self-priming pump

This BV series pump is designed with an emphasis on reliability and durability. Thanks to its fully mechanical vacuum system, these pumps prime quickly, even without liquid in the pump housing. Due to its heavy construction, this pump from the BV series is ideal for use in vertical and horizontal drilling techniques.

World-class performance this pump from the BV series is used for the most demanding bentonite and sludge applications. A robust overall design ensures maximum performance of this pump.

This pump is equipped with a soft starter. This motor control ensures a smooth start with constant acceleration, lowers the inrush current and prevents unnecessary mechanical stress

on the pump. Another advantage is linear stopping with this prevent pump damage due to water hammer

Pump Specifications:

Type.....BV150 D285
 Max. capacity.....430 m3
 /o'clock
 Max. head.....24 mwk
 Connection partsDN150 (6?)

Dirt passage.....80 mm
Flushing systemMultiple GEKA connection points
Vacuum systemBBA MP100
Motor.....30 kW – 4 pole
Voltage400/690V 50 Hz
Weight.....1640 kg
