

## BBA NB100 + DEUTZ F2L 1011F

### GENERAL INFORMATION

ID	24P00092
Make	BBA
Year	2010
Operating hours	8.160
Construction	Wastewater pumps
Fuel	Diesel
Weight	1.800 kg
Power kw	17
Power hp	23
Length	220 cm
Width	106 cm
Height	198 cm

### TECHNICAL INFORMATION

- 4" (4 inch) connection parts , Perrot/Cardan/Type C • available with any desired quick coupling. • Can be used immediately • Float switch (start/stop system) • in stock! • NEW and UNUSED! • PUMPED UP AND READY TO FLOW! • Pumping water-thin to highly viscous liquids and/or solid components • self-priming (dry) • Self-priming (dry, vacuum assisted) • Suitable for pumping bentonite and drilling emulsions • Suitable for pumping sewage • Suitable for pumping surface water / construction site water • SUPER silent housing (SUPER quiet) • Supported by van vacuum pump • Vortex/retracted pump impeller • We

### DESCRIPTION

Damages: none

The BBA Pumps NB/BV100 is a versatile dry self-priming dirty water pump. The super soundproofed casing houses a centrifugal pump driven by DEUTZ diesel engine. This gives the pump a capacity of 150m<sup>3</sup>/h and a head of 28 meters. This machine is equipped with vacuum system and vacuum pump. With this dry-mounted pump, you can count on a powerful suction operation of 8 to 9 meters or between 70 to 100 meters of suction length. Pre-filling with water is not required with the machine. This makes this dirty water pump quickly deployable.

BBA's NB/BV series is built to be used in demanding drilling and bentonite applications. It therefore effortlessly pumps sludge and bentonite. The pump offers high performance and is economical to operate. It is used in a variety of industries
