| ID                            | 24B00014            |
| Make                          | CONRAD drillrig     |
| Type                          | Boxer 100 - SBM 100 |
| Year                          | 2016                |
| Operating hours               | 1.795               |
| Construction                  | Drilling rig        |
| First registration date       | 12-12-2016          |
| Fuel                          | Diesel              |
| Vehicle identification number | 1509965             |
| Weight                        | 9.000 kg            |
| Length                        | 9.597 cm            |
| Width                         | 235 cm              |
| Height                        | 302 cm              |

### TECHNICAL INFORMATION

- Can be used immediately
- CE document available
- in stock!

### DESCRIPTION

Emissions class: Stage IIIB

Basic Data:

- Machine type : Boxer-100 SBM 100
- Serial number : 15-09-965
- Year of construction : 2015
- Weight : 9,000 Kg

Track undercarriage

- Track length : 2555 mm
- Track width : 600 mm
- Overall width undercarriage : 2320 mm

Power unit :

- Make and type : Iveco - N45 ENT
- Emission standard EU: Stage IIIB
- Emission standard US EPA : Tier 4A ,
- Exhaust system : Equipped with NOx reduction system and particulate filter
- Rated Power : 125 KW at 2200 rpm
- Power during drilling operation : 60% of rated power

Drilling mast:

- Effective stroke : 6 m.
- Max pull up force : 4,000 daN

- Max pressing force ( pull down) : 2,300 daN
- Upward speed : 0,9 m/s
- Downward speed : 0.5 m/s

Drill head:

- Passage : , 5" 125mm
- Number of motors : 2
- Drive torque max : 640 daNm
- Speed max : 60 rpm.

Offered with a fixed drill pipe of 6m

Optionally available with telescopic drill pipe max 12m
