

Dragflow HY85

GENERAL INFORMATION

ID	23P00071
Make	Dragflow
Year	2023
Construction	Water pumps
Weight	750 kg
Power kw	65
Power hp	88

TECHNICAL INFORMATION

• available with any desired quick coupling. • Can be used immediately • in stock! • NEW and UNUSED! • PUMPED UP AND READY TO FLOW! • Spare parts available, usually in stock • Suitable for pumping surface water / construction site water

DESCRIPTION

This Dragflow HY85 is a pump from Dragflow's medium range. The product properties of these pumps make them indispensable in, among others, the dredging, industrial and mining industry. This pump can be used in many ways, including on the grip arms of excavators or can be used on various dredging machines.

- ? Chrome steel wearing parts for a long service life
- ? Integrated agitator head to loosen solids
- ? High and ultra high heads deliver the highest pressures available in the market
- ? High capacity versions can deliver excellent performance coupled with low energy consumption

In stock and immediately available
Max flow: 400 m³/h
Max head: 44 MWK
Max dirt passage: 90 mm

Throughput capacity: 400 m³/h
Max dirt passage: 90 mm
Max. head: 44 MWK

Max dirt passag: 1180 rpm
Weight: 750 kg
