### DESCRIPTION

The Hidrostal "Betsy" 125GG (popularly also called "eekels" pump) has been a great success for years! main reason for this:

- \*spacious dirt passage
- \*pumps viscous liquids with solid particles
- \*high output against a particularly low engine power
- \*suctions very quickly and up to a great suction height (8.5 meters)
- \*blockage-free wear-resistant screw centrifugal impeller
- \*can slobber and can run dry

Machine can be used well for:

- \*pumping sludge
- \* Keeping sewer wells and cellars dry
- \*everywhere that really needs to be sucked and slobbered
- \*emergency pump unit including fire brigade, water boards and
- Water purification
- \*pumping surface water
- \*keeping construction pits and construction trenches dry
