DESCRIPTION

Damages: none

This is the newly designed version of the Selwood D75 in a robust sound-damped housing.

This D75 is powered by a Hatz stage 5 diesel engine that meets the strictest emission requirements.

The pump is easy to operate and maintain. Pump is equipped with an automatic start/stop system and is supplied with 2 float switches

This Selwood D75 is equipped with its own vacuum system, so that the suction of the water to be pumped is no problem for

it. It pumps a maximum of 59 m3 per hour is its maximum.

A maximum delivery height of 23.5 meters and a dirt passage of 29 mm.

If you are interested, please do not hesitate to contact us, we will be happy to assist you.
